SUMMARY

Recent graduate with a computer science and business degree from the University of Alberta. I work hard, love to build things, and see my projects through to their completion. I thrive working as a remote individual but also excel in managing and working within a team setting to complete project objectives.

EXPERIENCE

Project Manager, Software Developer
Luminance Learning LLC   **January – April 2021, Remote**
· Managed and facilitated the development of a full-stack website within a team.
· I managed the team and task schedules to ensure the project progressed and was completed on time.
· I used Django and Python to improve admin functionality on the back-end and implemented and used Pytest to ensure our product met its functional requirements.

Psychiatric Aide
Alberta Health Services   **October 2014 – Present, Edmonton AB**
· Helped support and manage a group of clients within a high-stress environment.
· Working fast and successfully accomplishing objectives within a highly specialized team has provided me with many interpersonal skills that transfer well into a software development team.

Night Merchandise
Costco Wholesale   **October 2013 – October 2014, Edmonton AB**
· At Costco, I worked alongside fellow employees to achieve a well-kept and enjoyable shopping atmosphere for all members.
· I performed tasks that ranged from customer service to working with a team of people to properly arrange and display merchandise.

Project Manager, Writer, Programmer
Supersonic Productions, CMPUT250   **Fall 2020, Edmonton AB**
· Managed and worked with a team of interdisciplinary students to develop a fully released and playable video game.
· Created a world and story as well as numerous characters and their dialogue.
· Used RPGMaker and C# to program enemy A.I. as well as program certain events to occur across the game world.

General Labourer
Heredity Homes   **Summer 2013, Edmonton, AB**
· Responsible for preparing and cleaning worksites and maintaining supplies.
· Transported materials to different worksites and assisted on-site project staff as needed.

PROJECTS

Volunteer Hospital Attendant
Alberta Health Services · Feb 2013 – Oct 2014
· As a volunteer hospital attendant, I attended to the basic needs of patients to support the professional healthcare staff.
· Working in this position entailed providing water, blankets, and such, as well as directing patients and their family's to create a smooth flowing hospital experience for all.

EDUCATION

Bachelor of Science in Computer Science
Minor in Business · University of Alberta · Edmonton, AB · 2021
